Annual Review of Phytopathology
Volume 24, 1986

CONTENTS

PREFATORY CHAPTER

Screening for Plant Health, *Paul Neergaard* 1

HISTORICAL PERSPECTIVES

A. H. R. Buller: Pioneer Leader in Plant Pathology, *R. H. Estey* 17

William C. Snyder: Pioneer Leader in Plant Pathology, *T. A. Toussoun* 27

Johanna Westerdijk: Pioneer Leader in Plant Pathology, *L. C. P. Kerling, J. G. ten Houten, and G. de Bruin-Brink* 33

DIAGNOSIS AND APPRAISAL OF PLANT DISEASES

Remote Sensing of Biotic and Abiotic Plant Stress, *Ray D. Jackson* 265

PATHOGENS/FUNGI

Biosynthesis and Functions of Fungal Melanins, *Alois A. Bell and Michael H. Wheeler* 411

PATHOGENS/BACTERIA

Taxonomy of Plant-Pathogenic Coryneform Bacteria, *Michael J. Davis* 115

PATHOGENS/NEMATODES

Biological Control of Plant-Parasitic Nematodes, *P. Jatala* 453

PATHOGENS/MOLLICUTES

Prospects for in vitro Culture of Plant-Pathogenic Mycoplasmalike Organisms, *I. M. Lee and R. E. Davis* 339

PATHOGENS/VIRUSES

Molecular Evolution of Plant RNA Viruses, *R. W. Goldbach* 289

Mechanisms of Resistance to Plant Viruses, *Fernando Ponz and George Bruening* 355

(*continued*)

MORPHOLOGY AND ANATOMY

The Ultrastructure of the Rhizoplane and Rhizosphere, *R. C. Foster* 211

Ultrastructure of Bacterial Penetration in Plants, *Jeng-sheng Huang* 141

PHYSIOLOGY OF HOST-PATHOGEN INTERACTION

Phytoalexin Synthesis: Biochemical Analysis of the Induction Process, *Jürgen Ebel* 235

The Role of Pectic Enzymes in Plant Pathogenesis, *Alan Collmer and Noel T. Keen* 383

BREEDING FOR RESISTANCE

Tissue Culture and the Selection of Resistance to Pathogens, *Margaret E. Daub* 159

EPIDEMIOLOGY AND INFLUENCE OF THE ENVIRONMENT

Microclimate in Relation to Epidemics of Powdery Mildew, *Hans-Jürgen Aust and Jürgen v. Hoyningen-Huene* 491

ACTION OF TOXICANTS AND CHEMICAL CONTROL

Systemic Fungicides and the Control of Oomycetes, *Yigal Cohen and Michael D. Coffey* 311

Benzimidazole Fungicides: Mechanism of Action and Biological Impact, *Leen C. Davidse* 43

BIOLOGICAL AND CULTURAL CONTROL

Practices and Precautions in the Use of Cross Protection for Plant Virus Disease Control, *Robert W. Fulton* 67

Basis for the Control of Soilborne Plant Pathogens with Composts, *Harry A. J. Hoitink and Peter C. Fahy* 93

Siderophores: Their Biochemistry and Possible Role in the Biocontrol of Plant Pathogens, *John Leong* 187

SPECIAL TOPICS

Disease Management Strategies and the Survival of the Banana Industry, *R. H. Stover* 83

INDEXES

Subject Index 511

Cumulative Index of Contributing Authors, Volumes 15–24 520

Cumulative Index of Chapter Titles, Volumes 15–24 523
